

# What families around the world eat in one week

**Instructions:** Study each photo and try to figure out which families have to spend more on food each week. (The families are just shown in alphabetical order). Feel free to go forward and backward through the pictures as much as you'd like to compare them.

Rank all 12 families according to who you think spends the most (rank = 1) down to who you think spends the least (rank = 12).
